## Watch Out For Summer Bumpers!

### BRAIN DRAIN

Watch out for summer learning loss! According to numerous studies, students typically lose one to two months of progress during summer break. Keep up with your music lessons to have brain GAIN instead of brain drain.

### DON'T LOSE YOUR SPOT!

If you do opt to take a break, we will gladly welcome you back in the fall, but cannot guarantee a spot with your current teacher. (They take on new students to fill the gap while you are away and maintain a consistent income). We will place you with another talented teacher in the event that you lose your spot.
